Dear Mr. Van Horn:

This is in regard to the patent term extension application for U.S. Patent No. 4,517,359 filed by Pliva Pharmaceutical, Chemical, Food and Cosmetic Industry under 35 U.S.C. 156. The patent claims the human drug product ZITHROMAX®, NDA 50-670.

In the March 31, 1992, issue of the Federal Register, the Food and Drug Administration published its determination of this product's regulatory review period, as required under 35 U.S.C. 156(d)(2)(A). The notice provided that on or before September 28, 1992, 180 days after the publication of the determination, any interested person could file a petition with FDA under 35 U.S.C. 156(d)(2)(B)(i) for a determination of whether the patent term extension applicant acted with due diligence during the regulatory review period.

The 180-day period for filing a due diligence petition pursuant to this notice has expired and FDA has received no such petition. FDA, therefore, considers the regulatory review period determination to be final.

Please let me know if we can provide further assistance.

Sincerely yours,

Ronald L. Wilson
